ADMINISTRATIVE AND BIOGRAPHICAL HISTORY

As a part of the routine business of C & J Clark Ltd, the company (and associated subsidiaries) have collected a range of maps and plans over time which now form a significant component of the family and firm's archive collections.

EXTENT

3 plan chests

ARCHIVAL HISTORY

It is assumed that maps and plans have been collected by the firm since its beginnings in 1825 and following the emergence of the Property Department and Street Estates Ltd alongside the company's archive in 1950. Maps relating to the local and social history of Street and district have also been occasionally contributed by members of the Clark family with local connections.

Two particularly significant deposits of maps and plans are extent in this collection, firstly that from Bowlingreen Mill (Avalon Leatherboard) in Nov 1990 and secondly that from Properties, C & J Clark Ltd, in summer 2005.

FINDING AIDS

A rough list is available, partly compiled by Derek Patch in 1998 with subsequent additions. The collection would benefit from detailed future cataloguing, in particular the OS 6" and 25" plans.

RELATED UNITS OF DESCRIPTION

Maps and plans relating to the family and firm are also scattered throughout many of the Trust's other archive collections. In particular, see PROP (Properties/Street Estates Ltd), which contains numerous maps and plans of Clarks' factories and associated civic buildings (collection overview not yet available, Oct 2014).

PUBLICATION NOTE

It is not known to what extent this collection has been used in published research.
